Pharmacy, located at 1625 N Market Blvd, N219, Sacramento, California, 95834, and which has a web-site, http://www.pharmacy.ca.gov/. Through this web-site, the general public can ascertain whether a particular company is licensed to distribute pharmaceuticals (or conduct other specific pharmacy-related activities) within California. A search on this web-site revealed that NutriThrive is not licensed to conduct pharmacy-related activities within California, but that BioRx has obtained two licenses to conduct pharmacy-related activities within California as a non-resident pharmacy. It has obtained one license to conduct sterile compounding activities as a non-resident pharmacy (License No. 99504), and another license to conduct business as a nonresident pharmacy (License No. 819.) True and correct copies of the information regarding both of these licenses, available at http://www.pharmacy.ca.gov/, is attached hereto as Exhibit C.

6. Through an Internet search, we learned that NutriThrive may have at least one customer within this judicial district. Specifically, on the Parent-2-Parent on-line forum, which provides a discussion board for parents of children requiring, among other things, total parenteral nutrition ("TPN"), we found a post by a woman in Redding, California, Jessi who states she is the parent of two boys, Jaxson, and Joshua. In this post, Jessi states "I am working with NutriThrive right now." Attached as Exhibit D is a true and correct copy of the thread containing Jessi's post available at:

http://www.parent-2-parent.com/forum/search.php?searchid=583737&pp=25&page=20. Jessi's post is on page 9 of Exhibit D.

7. On the day Nutrishare's Complaint, summons, and preliminary injunction papers were served, both Nutrishare and NutriThrive were attending the Oley Conference at the Mission Valley Marriott Hotel in San Diego, which began on June 26, 2008 and ended on June 29, 2008. I and about eleven other individuals represented Nutrishare at the Conference. There were approximately 200 conference attendees, the majority of whom were home infusion consumers. There were twenty-two companies that exhibited their products and/or services at booths in the exhibit hall. Attached hereto as Exhibit E is a true and correct copy of portions of the program distributed to all of the conference attendees, which lists, among other information, all of the exhibitors along with their descriptions. Based on the descriptions in this program, eleven of the

exhibiting companies are home infusion providers. Nine of those companies are national (versus local/regional) home infusion providers. Nutrishare and BioRx d/b/a NutriThrive were two of the nine national home infusion providers.

- 8. At the Oley Conference, NutriThrive's name was prominently displayed on a banner hanging at the entryway to the conference facilities, immediately below Nutrishare's name in the same font size, color, and typeface. Attached hereto as Exhibit F is a true and correct copy of a photograph of the banner.
- 9. In the Oley Conference exhibition hall, which was the only place where home infusion companies were permitted to display and market their products, both Nutrishare and NutriThrive had prominent booths, each at one of the two back corners of the hall. Attached as Exhibit G is a true and correct copy of the exhibit hall layout provided by the Oley Foundation to all of the exhibitors prior to the conference. NutriThrive's booth was staffed by, among others, Donna Noble (the mother of Nutrishare's former customer).
- 10. On the Friday and Saturday of the Conference, there was a conference-wide luncheon. The program attached to this declaration as Exhibit E indicated that Friday's lunch was to be sponsored by NutriThrive. At the lunch, a placard on the table prominently displayed NutriThrive's name.
- 11. During the Oley Conference, my colleagues and I met a woman named Rosemarie Mielke, who informed us that she lives in Lancaster, California and used to be a customer of NutriThrive but switched her TPN provider to Crescent Health.
- 12. Pursuant to the Oley Foundation's rules and policies, Nutrishare, NutriThrive, and the other exhibitors were not permitted to solicit new customers outside the two-hour exhibition period that occurred on the Friday and Saturday of the conference. The exhibitors were, however, permitted to meet with their existing customers. During a picnic on the last day of the Oley Conference, one of Nutrishare's California customers, Kathryn Bundy, approached me and informed me that NutriThrive's representatives were aggressively soliciting her making her feel uncomfortable. NutriThrive's actions were in contravention of the Oley Foundation's rules.

27

28

- 13. In order to further confirm whether BioRx d/b/a NutriThrive was conducting business in California, I and my colleagues called NutriThrive's number and asked if they service TPN patients in California. They answered "yes." One of Nutrishare's patients in California also asked NutriThrive to send her more information regarding its products and services. NutriThrive sent her a full "start-up" packet, which included their business card.
- 14. In its Motion to Dismiss, BioRx states that Nutrishare only provides total parenteral nutrition ("TPN"), whereas NutriThrive provides enteral nutrition and TPN. The only difference between the two therapies is that enteral nutrition involves feeding the patient through a tube inserted through the patient's nose or mouth, and TPN involves feeding the patient intravenously. Although Nutrishare's focus is TPN, Nutrishare does provide enteral nutrition to its TPN patients.

I declare under penalty of perjury under the laws of the United States and the State of California that the foregoing is true and correct to the best of my knowledge.

Dated this 25th day of July, 2008, at Galt, California.

RODNEY OKAMOTO

Document 31-2

Page 1 of 8

"We are very pleased with the service we have had since May of 2007. We switched our service to BioRx because we felt they were providing more individual attention to my son. The people at BioRx deal or have dealt with Hemophilia on a daily basis and can relate to my stress and emotion. They take the time to help you learn to infuse or give you any information you need to make the best decision for your child. They are available at any time and will go above and beyond to help. Thank you" - Daniel and Melissa C.

BioRx Offers Free 2008 Kids Hemophilia Calendar

Cincinnati, Ohio (October 31, 2007) - BioRx, a specialty pharmaceutical company, announces the availability of a free 2008 calendar to the hemophilia community. The annual Kids Hemophilia Calendar features artwork from children who either have a bleeding disorder or have a sibling or parent with a bleeding disorder.

To produce the calendar, BioRx sponsored a contest requiring entrants in three different age categories to submit artwork relating to their experiences in living with hemophilia. The company received more than 70 entries, which were judged on artistic merit and relevance to hemophilia. All contestants receive a prize and a copy of the calendar. Winning artwork is published in the calendar.

BioRx News

Contact Us

Cincinnati, Ohio (October 18, 2007) -BioRx, a specialty pharmaceutical company, announces the availability of Vivaglobin® (immune globulin subcutaneous [human]), an immunoglobulin (ig) replacement therapy for treating patients with primary immune deficiency disorder (PIDD). PIDD is a group of usually-genetic disorders that compromise the immune system, leaving people vulnerable to recurrent, life-threatening infections. An estimated 50,000 Americans have PIDD.

BioRx is one of a small number of specialty pharmacies currently approved to dispense Vivaglobin®, which is manufactured and marketed by CSL Behring. Vivaglobin® is the first and only subcutaneous immunoglobulin replacement therapy approved by the FDA in the United States. Vivaglobin® delivers treatment directly under the skin (subcutaneously), offering a safe and effective alternative to intravenous infusions of immunoglobulin.

Mark Kestler, General Manager of BioRx, says "Recognition by CSL Behring as an approved Vivaglobin® provider validates BioRx as a leading quality provider of specialized pharmaceutical services. We are excited to be able to offer this valuable treatment option to our PIDD patients."

Until recently, PIDD patients needed to schedule appointments with a hospital, physician or homecare company to receive intravenous immunoglobulin treatment. Immunoglobulin is a life-sustaining blood product that is standard immune replacement therapy for most people living with PIDD. Approximately 70 percent of PIDD patients receive Ig replacement therapy, primarily intravenous immunoglobulin (IVIg), in which a pump delivers the immunoglobulin through a needle into a vein.

With Vivaglobin®, PIDD patients in the United States can now self-administer the treatment at home, with training from and the approval by their physician. The drug represents another treatment option for patients who may not easily tolerate the traditional intravenous method, because they have poor venous access or experience serious side effects from that method. Vivaglobin® also is appropriate for those who want the freedom and convenience of safe home self-administration of Ig replacement therapy.

This convenient treatment option will require education to help patients properly manage their own therapy. BioRx will provide patient training, as well as the drug, infusion pump, needles, tubing and any other supplies needed for treatment. All patients who start on Vivaglobin® receive a patient starter kit to help manage their therapy. The kit includes helpful tools, such as administration guides, product information and a treatment journal. Typically, a patient requires approximately 3 or 4 educational sessions with a specially trained nurse before beginning self-administration independently.

More information about Vivaglobin® at BioRx is available by calling 866-442-4679, or via email at info@biorx.net

Important Safety Information

As with all immune globulin products, Vivaglobin is contraindicated in individuals with a history of anaphylactic or severe systemic response to immune globulin preparations and in persons with selective IgA deficiency who have known antibody against IgA. If anaphylactic or anaphylactoid reactions are suspected, discontinue administration immediately and treat as medically appropriate.

Vivaglobin is derived from human plasma. As with all plasma -derived products, the risk of transmission of infectious agents, including viruses and, theoretically, the Creutzfeldt-Jakob disease (CJD) agent, cannot be completely eliminated.

In clinical trials, the most frequent adverse event was injection-site reaction, consisting of mild or moderate swelling, redness, and itching. No serious local site reactions were observed, and reactions tended to decrease substantially after repeated use. Other adverse events irrespective of causality included headache, gastrointestinal disorder, fever, nausea, sore throat, and rash.

Case 3:08-cv-01493-JM-BLM Document 31-2 Filed 07/28/2008 Page 8 of 8
As with all immune globulin products, patients receiving Ig therapy for the first time, receiving a new product, or not having received Ig therapy within the preceding eight weeks may be at risk for developing the string of the first time.

product, or not having received Ig therapy within the preceding eight weeks may be at risk for developing reactions including fever, chills, nausea, and vomiting. On rare occasions, these reactions may lead to shock. Such patients should be monitored in a clinical setting during the initial administration.

Ig administration can transiently impair the efficacy of live attenuated virus vaccines, such as measles, mumps and rubella.

In clinical studies, administration of Vivaglobin has been shown to be safe and well tolerated in both adult and pediatric subjects. No pediatric-specific dose requirements were necessary to achieve the desired serum IgG levels. Safety and efficacy were not studied in pediatric subjects under two years of age.

About CSL Behring

CSL Behring is a global leader in the plasma protein biotherapeutics industry. Passionate about improving the quality of patients' lives, CSL Behring manufactures and markets a range of safe and effective plasma-derived and recombinant products and related services. The company's therapies are used in the treatment of immune deficiency disorders, hemophilia, von Willebrand disease, other bleeding disorders and inherited emphysema. Other products are used for the prevention of hemolytic diseases in the newborn, in cardiac surgery, organ transplantation and in the treatment of burns. The company also operates one of the world's largest plasma collection networks, ZLB Plasma. CSL Behring is a subsidiary of CSL Limited, a biopharmaceutical company with headquarters in Melbourne, Australia. For more information, visit www.cslbehring.com.

About BioRx

Based in Cincinnati Ohio, BioRx is a national pharmacy specializing in highly customized care for the primary immunodeficiency diseases (PIDD) community.. As one of the nation's fastest growing providers of IgG and other specialty pharmaceuticals, the company's clinical staff reaches patients and physicians in all 50 states. COMPANY MISSION

NutriThrive's mission is to optimize the nutritional well being of our consumers through our customized approach. Our home parenteral and enteral nutrition program is driven by our customers' needs while maintaining the highest standards in service and clinical management. Quality care that fosters independence and empowers consumers and their families is the fundamental basis from which our business decisions will be made.

Customer Care

Our dedicated and knowledgeable customer service managers coordinate fulfillment of supplies and equipment according to individual needs. Ongoing follow-up is provided to ensure patient satisfaction.

Clinical Monitoring

NutriThrive offers state of the art monitoring of your patient. We use advanced technology to determine metabolic status which ensures accurate assessment of your patient's needs.

Clinical Care

NutriThrive's Nutrition Support Team assesses and monitors your patient throughout their course \Box of therapy. Our goal is to optimize your patient's nutritional status to minimize complications and hospitalization. We offer disease focused nutrition formulations and adjunctive therapies for better patient outcomes.

Nursing Care

NutriThrive coordinates the nursing care for your patient and facilitates communication regarding patient's clinical status. Our nurse liaison maintains currency on infusion devices and protocols to maximize patient satisfaction and minimize infection.

Reimbursement Support

NutriThrive can save you valuable time by verifying your patient's benefit information. Our reimbursement team is experienced in handling complex insurance issues.

Professional Education

NutriThrive provides professional continuing education opportunities on topics of nutrition support for the healthcare professional. We promote research initiatives in our quest to improve knowledge and best practice in nutrition support.

Consumer Support

As a commitment to our consumers, we offer educational events and workshops which allows consumer networking opportunities. We support our consumers through the Oley Foundation as a Gold Medallion Partner and through our Full Circle Commitment.

FULL CIRCLE PROGRAM

NutriThrive has created a new program, Full Circle, to financially support the Oley Foundation and help individuals requiring home parenteral and enteral nutrition.

Through the Full Circle progam, NutriThrive has committed to providing a base level contribution to the Oley Foundation annually. Additionally, NutriThrive will contribute \$1 for every day of Parenteral Nutrition and \$1 for every course of Enteral Nutrition that we dispense to any patient nationwide.

NutriThrive hopes that this commitment will help enhance the treatment of nutritional deficiencies, improve access to a consumer support network, and expand scientific and medical research on such diseases.

To obtain more information about the Full Circle program, please call 888-N-THRIVE or email us at info@nutrithrive.com.

ADVISORS

NutriThrive values the opinions of consumers and their families and the professional nutrition community. Our advisory boards provide input into our daily practice and long-term vision.

Nutrition Advisory Board consists of Key Opinion Leaders in nutrition support. Members are from a variety of disciplines including medicine, nursing, nutrition and pharmacy, thus providing a comprehensive approach to NutriThrive's practice. These professionals provide expertise relative to NutriThrive's policies, procedures and research initiatives.

Nutrition Consumer Advisory Group includes patients and families receiving nutrition therapy at home. This valuable group guides NutriThrive relative to program development and educational material design. Nutrihrive has on-going active consumer groups in the Ohio and Massachusetts areas who meet quarterly to discuss new initiatives. Feel free to contact our Consumer Advocates for more information:

SUPPLIES & EQUIPMENT

At NutriThrive, we are committed to providing the clinical and personal needs of our consumers. At the 2007 Oley Conference on Cape Cod, NutriThrive conducted a survey to determine what consumers want in a home infusion company.

Overwhelmingly, the top answers referenced supply and equipment availability and flexibility. At NutriThrive, we are committed to providing state-of-the-art products that meet the clinical and personal needs of our consumers. We apply a Best Practice approach to our product and equipment capabilities, providing the optimal in care with the flexibility to meet individual needs.

CONSUMER SUPPORT

NutriThrive is focused on supporting the Home Parenteral and Enteral Nutrition (Home PEN) consumer community.

Consistent with this commitment, we have established (a) Consumer Advocate positions on our team. Our Advocates are consumers or families of consumers and have first-hand knowledge of the challenges of living with home nutrition support. (Our) The Consumer (a)Advocates are (is) dedicated to establishing rapport with consumers, assisting customers through the maze of Home PEN and ensuring that they are being serviced according to their individual needs.

A Message From Our Consumer Advocates: A New Adventure

You or a loved one has begun a new adventure, an adventure that has taken you into the world of home nutrition therapy. This is a foreign world where you do not speak the language or know anybody. Just like a trip to another country the journey into home nutrition therapy can lead you into a place where you quickly

Know that you and your family are not ALONE. Your Nutrithrive family is here to guide and support you on this adventure. There are other families facing the same challenges. Home nutrition therapy can be isolating, connecting with other families can lessen your feelings of isolation. Your Consumer Advocate is here to connect you with other families.

In time you will come to see this adventure as routine. You will learn the language, the equipment and you will adapt. What once seemed so foreign is now your way of life which brings with it new possibilities. You are no longer trying to survive your home nutrition therapy but you are THRIVING.

Consumer Advocates Resources

If you are interested in speaking with one of our Consumer Advocates, feel free to (call) contact either Donna Noble at 1-866-890-5517 or by email at: dnoble@nutrithrive.com or Abby Brogan at 1-774-270-3425 or by email at: abrogan@nutrithrive.com.

EDUCATION

Our enteral and parenteral nutrition patient education materials are under construction. We appreciate input regarding the section completed for enteral nutrition. Please feel free to email us with your comments at info@nutrithrive.com.

Methods Of Administration

There are three methods of administering your tube feeding formula: bolus, gravity, and pump. Your nurse or dietitian will discuss your specific method with you in more detail.

Bolus:

A syringe is connected to your feeding tube and acts as a funnel to allow the formula to flow into the tube. The formula can also be gently injected into the tube with the syringe. Not used with jejunostomy tubes.

Gravity:

Formula is placed in a bag with tubing and allowed to drip by gravity into the feeding tube. The height of the bag helps control the rate and there is also a clamp on the tubing which helps to regulate the flow. Not used with jejunostomy tubes.

Pump:

Formula is placed in a bag with tubing and sent through a pump which is programmed to deliver the appropriate amount of formula at a controlled rate. Only method allowed with jejunostomy tubes.

CONSUMER ADVOCATES

What Is A NutriThrive Consumer Advocate?

These valuable employees act as community-based liaisons between NutriThrive and our consumers of Home Enteral and Parenteral Nutrition. The Consumer Advocate also assists in the development of nutritional programs, educational materials and provides support to new patients to help acclimate them to their new life on Nutrition Support. The Advocate also acts as our link with both local and regional non-profit and consumer support groups.

A Message From Our Consumer Advocates: A New Adventure

You or a loved one has begun a new adventure, an adventure that has taken you into the world of home nutrition therapy. This is a foreign world where you do not speak the language or know anybody. Just like a trip to another country the journey into home nutrition therapy can lead you into a place where you quickly

Know that you and your family are not ALONE. Your Nutrithrive family is here to guide and support you on this adventure. There are other families facing the same challenges. Home nutrition therapy can be isolating, connecting with other families can lessen your feelings of isolation. Your Consumer Advocate is here to connect you with other families.

In time you will come to see this adventure as routine. You will learn the language, the equipment and you will adapt. What once seemed so foreign is now your way of life which brings with it new possibilities. You are no longer trying to survive your home nutrition therapy but you are THRIVING.

Consumer Advocates Resources

If you are interested in speaking with one of our Consumer Advocate, feel free to call Donna Noble at 1-866-890-5517 or by email at: dnoble@nutrithrive.com or Abby Brogan at abrogan@nutrithrive.com.

CUSTOMER SATISFACTION

NutriThrive is committed to customer satisfaction. As part of our standard practice, Satisfaction Surveys are periodically sent to consumers to check our service and determine what we can do to improve. Suggestions for improvement in services or grievances can be addressed through our offices at 888-N-THRIVE (888-684-7483).

See What One Of Our Nursing Agency Partners Has To Say About NutriThrive:

"I just wanted to send a note to let you know how impressed I was with the care that our mutual patient...got. From the preplanning visits, to the hospital to coordinate an appropriate discharge, to the post hospitalization follow-up, this patient got more attention than any TPN/ABX patient that I have ever shared with an infusion or nutrition company. As you know, I have had many years in the business of home infusion, but have never seen communication and coordination to exceed this case.... Your staff, especially Mona, is pleasant, knowledgeable and extremely professional..."

Verifv a License

California Pharmacy Law provides that information on the board's Web site can be accepted as verification of a license, per Business and Professions Code section 4106. If after following the steps below you are unable to navigate your search or have additional questions about the status of a license, please contact the board.

To find an individual or business, select a license type from the list below. Use the following link to assist you in your search.

- Clinic Permit
- Pharmacy Technician
- Drug Room
- Registered Pharmacist
- Designated Representative (Exemptees)
- Veterinary Food-Animal Drug Retailer
- Hypodermic Needle and Syringe
- Wholesalers
- Intern Pharmacist
- Sterile Compounding
- Pharmacies
- Non-Resident Sterile Compounding

Use the following steps to help your search. Use the following link for disciplinary information on a licensee.

- Enter the first and/or last name
- If you know the license number, enter the number only
- Do not use the prefix as part of the license number
- Only enter the name or the license number do not use both
- A zip code or city as a second criteria will narrow down the search

Begin your search

Disciplinary Information

To determine whether board disciplinary action has been taken on a licensee, select a license type from the above list and follow the search steps. The search results for the licensee will indicate "Yes" under the Actions column if there is disciplinary information on the record. To see all the information for a licensee, including the disciplinary action, you must click on the highlighted name.

Begin your search.

Use the following link for general information concerning the board's disciplinary record information and public disclosure.

I sm so sorry. I would keep calling and calling. And then if she is not available I would ask to speak to her supervisor. That is ridiculous. I hate it when people argue with customers. All they need to say is I will look into it and get back to you. Not argue. Is it really that hard??

Re: HHC Problems AGAIN!!!

I would get a case manager with your insurance. We did that. Then when we have issues with what Apria won't give us, I call the case manager and she deals with them.

Re: HHC Problems AGAIN!!!

Glad you got the formula straightened out. I would call your insurance company and get a case manager. I would also let them know that the HHC was attempting to mis-bill them. That usually gets their attention. Also the insurance company should be able to give you a list of all the HHC's they will work with. Sometimes an out-of-town choice works better.

Re: HHC Problems AGAIN!!!

I have the opposite problem. Our insurance calls every month to see if Logan STILL needs his formula. Like he's going to outgrow all of his problems overnight. UGG. I'm glad you got it straightened out and I hope they don't do this to you again.

I would call around too. There is no reason why you have to stick with a local company. The company I deal with is hours away from me. They use a delivery company that delivers all over Long Island.

If these companies start to realize that they will loose business if they don't straighten out, they might straighten out!

Hope things go smoother next time.

Re: HHC Problems AGAIN!!!

Ugh! I agree with calling around. I was very surprised to find out that Nutrithrive (which is national by mail) took both of K's insurances. You should not have to put up with that kind of stuff.

I am glad they got it all straightened out but I agree with everyone else its time to start calling around. I am working with Nutrithrive right now. I love my local HHC but they dont work with Zevex. We have a PET Pump and its not bad but now that we have beautiful sunny weather we go to the park in the afternoons and his pump is non stop beeps. So I want to get the infinity

President's Welcome

Dear Oley Friends,

During the conference, I would like you to do two things. First, look me up and tell me what you like best about the Oley Foundation (or tell me what you don't like or what you would like to change). Second, say hello to someone you don't know and ask them how they are connected to Oley.

We strongly advise that you discuss any

medical information received from the Oley

Foundation through the newsletter, conference

presentations, informal discussions, etc. with your

One of the best things about the Oley Conference is what we learn from each other. Our speakers are excellent. The program has been thoughtfully planned to have something of interest for everyone. However, all the information offered is only a starting point. Ask questions. Share your experience. Learn about someone or something new.

physician before making any changes in your

health care.

The physicians, dietitians, nurses, pharmacists, and other clinicians are here because they want to spend time with HPEN consumers and their families. Oley's corporate partners are here to tell you about products and services that could make a major difference in your life. Long-term consumers who have "been there and done that" are here to share things they have learned about managing their therapy more effectively and living their lives as fully as possible. If this is your first Oley Conference, please don't be shy! Say "Hello" to everyone and ask as many questions as you can think of.

I would also like you to help me learn more. I had been a tube feeder for only eighteen months when I attended my first Oley Conference. I was amazed at how much I learned. I have learned something new at each of the four Oley conferences I have attended since then. Now, I am also learning about being on the Board of Trustees. I want to learn from you how the Oley Foundation can best serve our consumers, clinicians, and corporate partners.

Enjoy the Conference and enjoy San Diego! I look forward to visiting with you.

Sincerely,

Rick Davis HEN Consumer

Conference Co-Chairs' Welcome

Dear Oley Friends,

learning and networking. We hope that the formal presentations will shed some light on This great venue, the warm sun and relaxed setting create an atmosphere conducive to the therapy that sustains you or a family member. We encourage you to ask questions and visit the speakers at the close of the sessions. Afternoon breakout sessions are more ntimate gatherings and also excellent venues for interacting with other consumers/family members and the "experts." If you are here with a family member consider attending Welcome to beautiful Southern California and the San Diego Marriott in Mission Valley. separate sessions to expand on what you learn. If this is your first time attending an Oley conference, try not to miss the Welcome Reception on Thursday at 7:00 p.m. and Conference Orientation on Friday morning at 8:30. The Town Hall Meeting on Saturday evening is meant to bring us together for the purpose of exchanging ideas. Learn more about the nuts and bolts of our efforts and share your thoughts on how to move Oley's mission forward. *Dots for Diagnosis" is new this year and we hope that you will participate by "wearing" your diagnosis for the purpose of networking. Often the underlying disease is the common bond that connects Oley members, and it can take the conference experience to the next level.

truly believe in furthering your understanding of these complicated therapies. Please join It's worth mentioning that Oley conference speakers join us in San Diego because they us in thanking them for their enthusiasm and commitment.

KATE SWENSEN

Outreach Coordinator

charming, personable nature and experience in the daily impact of living with HPN are Kate has been Oley's Outreach Coordinator since 2006. She recently graduated with a B.S. in biological sciences from SUNY Albany. She has first-hand experience with HPN as one of her family members has been HPN-dependent for twenty years. Kate's swensek@mail.amc.edu a great asset for the Oley team. She looks forward to hearing your input and ideas.

General Information

Registration and Conference Information

Information about all aspects of the conference is available at the registration desk. The desk will be staffed Thursday from 6:00 p.m. to 7:00 p.m., Friday from 8:00 a.m. to 4:30 p.m., and Saturday from 9:15 a.m. to 4:30 p.m. All conference activities will be held at the Marriott except for the youth activities, transition to independence session, and Walk-a-Thon. A map of the meeting rooms is on the back cover of this program.

Please don't leave needles laying around in your hotel room. There will be a sharps container at the registration desk, if you didn't bring your own.

Medical Support/Emergency Services

For an emergency: 1) Call your physician to discuss the proper treatment plan. 2) If your physician is not available, call Dr. Lyn Howard for her recommendation (she is staying at the Marriott from Thursday evening through Sunday evening). 3) Seek emergency care at Sharpe Memorial (7901 Frost Street, San Diego, 858-939-3400). Telephonic support/backup for (emergency) nursing and pharmacy infusion during the conference has been graciously offered by Apria Healthcare / Coram Inc., Specialry vourself as an Oley Conference participant. They will need contact information for your physician in order to obtain orders. They can dispense prescribed fluids, additives, and Infusion Services. Call the San Diego Coram branch (800-540-7887) and identify supplies with a physician's order. They can also help troubleshoot a consumer's pump, provided it is one they are familiar with.

Child Care

lunch break. Signed permission statements are required and are available at the registration from 8:30 a.m. to noon and 2:00 p.m. to 4:30 p.m., and Saturday from 9:15 a.m. to noon and 2:00 p.m. to 4:30 p.m. Parents are responsible for their children during the desk. Please label your child's personal items (strollers, sippy cups, backpacks, etc.) Sponsored by Nutri Thrive, Inc., complimentary child care is available in Ashley's, Friday that you will be leaving in child care.

Friday morning: Children who have been nominated for awards should attend the Awards Ceremony. Each child will be recognized and have their picture taken.

Welcome Reception

Join us Thursday at 7:00 p.m. in Cabrillo Salon I. Meet Oley Trustees and staff, and other consumers. We will be celebrating Oley's 25th anniversary.

Conference Orientation

A must attend for first-time Oley Conference goers. Meet Oley staff Friday at 8:30 a.m. in Cabrillo Salons to learn how to make the most of your first conference experience.

Oley Awards Presentation

loin us in celebrating some outstanding individuals Friday morning at 9:00 a.m in the Cabrillo Salons. To read about the winners, see pages 13 to 19. Children who have been nominated for an award should attend the presentation with their parents.

Main Sessions

Eriday: Advocating for Yourself: Imagine You Are the Co-Pilot

your care, as well as how to reduce catheter infections. Don't miss the advice from experts In this session you'll learn how to build the optimal relationship with your physician to mprove your health. You'll also discover how an interventional radiologist can improve who have dozens of years experience working and living with homePEN.

Saturday: It's a Zoo Out There!

Everything from diarrhea to depression is fair game. You'll also learn more about the After optimal health care, quality of life is priority number one. Oftentimes it is hard to separate the two! In this session you'll learn tips for improving your quality of life. esearch Oley is starting in this area. Come prepared to participate.

Exhibit Hall

Come learn more about parenteral and enteral products and services Friday and Saturday in the Rio Vista Ballroom. The Grand Opening is Friday at noon. Saturday is Raffle Day. Visit the exhibits and qualify to win raffle prizes. You must be present in the hall to win! Complimentary lunch will be available both days, sponsored on Friday by Nutri Thrive.

Your Choice! Breakout Sessions or Workshops

Afternoons it's your choice: join in the workshop or participate in the small group discussion breakout sessions (see pages 10 and 11 for topics). A must attend for tube feeders, Friday's EN workshop features a panel of experts who will speak on tube complications and options, site and formula selection, reimbursement ssues (Medicare competitive bidding process), etc. Roundtable discussion are planned. Bring your questions!

Designed for parents, Saturday's pediatric workshop will cover advances in the field of managing HPEN in the pediatric population, pain management, intestinal transplantation, school advocacy, maintaining relationships with your child's medical team, preserving family life, etc. Bring your questions.

General Info. (con't)

Jammin' Jammies!

Sponsored by Abbott Nutrition-PediaSure, a supervised evening of fun for Oley kids and siblings will be held Saturday in Ashley's, 7 to 9:00 p.m. (ages 7-14), and 7 to 11:00 p.m. (ages 15+). Sign-up and permission slips are required, and HPEN youth who need to be infusing must come already hooked up. Wear modest PJ's and don't forget your pillow!

Youth Activity

The youth activities are designed for kids ages 7 to 15. Signed permission statements are required and available at the registration desk. If your child tires easily or has limited mobility, please notify Oley staff at your earliest convenience, so we can plan accordingly.

Friday Youth Activity - Old Town Trolley Tour

Kids should be ready to leave from the lobby at 2:00 p.m. sharp! They will enjoy a private two-hour, fully narrated, kid-oriented tour of San Diego and Coronado aboard Oley's reserved trolley. The trip covers 30 miles and over 100 points of interest, including the San Diego Zoo and El Prado in Balboa Park, Old Town, and Seaport Village. The Oley will provide a water cooler. Kids should dress for hot weather. The tour will end back at the lobby of the San Diego Marriott Mission Valley, where you should pick up your child(ren) at 4:30 p.m. If you haven't already signed your child(ren) up for the bus is handicap accessible and restroom stops will be made as needed during the tour. rip, please be sure to do so at registration, as seating is limited!

Document 31-6

Saturday's Youth Activity — To Be Determined

Transition to Independence (Ages 15 to 30 only)

Young adults are invited to join Dr. Kelly and her team in the lobby at noon... for lunch This session includes an opportunity to network with others and an excursion through San Diego on the Old Town Trolley that ends at 4:30 p.m. Attendees will need signed and a serious discussion about taking responsibility for the management of their therapies. permission slips and a beverage (if bottled water does not meet their needs)

In Case You're Wondering...

During the conference you may notice meetings or gatherings that arent announced anywhere, and wonder what is going on. The answer is that there are a few activities that happen at the Oley conference that not all conference attendees participate in.

For example, a meal or outing may be hosted by a company for their customers who attend the Oley conference. It is a way for them to thank their customers and get to know them better. Oley's policy prohibits companies from inviting people who aren't already receiving their products or services, and from holding gatherings during times that conflict with scheduled Oley activities.

If you have any questions about any gatherings, whether an invitation you've received is appropriate, or any other part of the Oley conference, please feel free to ask an Oley staff member at the registration desk.

2008 Awards Program

The Annual Oley Awards Program recognizes homePEN consumers and family members who exhibit courage and perseverance in overcoming the adversity of illness and are generous in the effort of helping others. It also recognizes an outstanding clinician volunteer, and HPN researchers.

Winners are chosen from a pool of nominees by a panel of previous award winners, Oley board and committee members, and Oley staff (when there is a tie). We rely on YOU to nominate worthy candidates. There are many individuals who deserve this recognition. Please consider nominating these special people for next year's program. Nomination forms are available in the January/February issue of the LifelineLetter, and online at www.oley. org (between February and April).

Join Oley in celebrating their outstanding efforts Friday, June 27, at 9:00 a.m. (immediately following the Welcome).

LifelineLetter Annual Award

In Honor of Nutrishare, Inc., Oley Platinum Partner

Inne Bodden • Clearwater, FL

June Bodden well deserves the Lifeline Letter Annual Award, which is given to recognize a nomePEN consumer or caregiver's courage, perseverance, positive attitude, and generosity in helping others in their struggle with homePEN issues.

ner church Bible study group; on Wednesdays, she volunteers with Meals on Wheels June, who has been PN dependent for twenty-three years, has been an Oley Regional Coordinator volunteer since the early 1990s. In that capacity she has reached out to many who were looking for support and answers. Beyond that, on Tuesdays June is active with and has for eighteen yearst); and on Fridays she helps at her local food pantry.

June has been very active with the Oley-Tampa Bay area support group since it began in .988. She stepped up to lead the group about ten years ago, and since then has carefully planned meetings and located materials that might be of interest to the group or other ²N consumers. Twenty-seven people, including consumers, caregivers, and clinicians, gathered in March to celebrate the group's twentieth anniversary.

Diane Wagner, a consumer who has also been part of the group since 1988, says, "June is in contact with me and others by e-mail, snail mail, or phone. She makes an extra effort whenever someone she knows is in the hospital or sick at home. She spends hours planning our group meetings, contacting new patients on PN, and keeping us informed of new advancements in Oley and PN-related areas."

Through the years, June has frequently given of her time to answer calls to one of the consumer/caregiver toll-free phone lines Oley offers. In fact, she's "(wo)manning" a line in September. Don't hesitate to call her.

As Oley Consumer Advocate Don Young says, "June is a hard worker who gets the ob done. If she were a baseball pitcher," he adds, "we would say, 'She still has her

Congratulations, June!

Celebration of Life Award

In Honor of Apria Healthcare / Coram Inc., Specialty Infusion Services,

Oley Platinum Partner

Jerry Fickle • New Haven, IN

Jerry Fickle has been on parenteral nutrition since 1981, and in that time PN hasn't ropped him from doing the things he loves. Jerry lives life to the fullest, and it's because of this that he is being honored with the Oley Foundation Celebration of Life Award.

consumers. Jerry took to this problem with perseverance and a positive outlook." Of Jerry started on HPN in the days when consumers had to go to the hospital pharmacy and pick up all their supplies themselves-a daunting task. This included the glass oottles of amino acids, dextrose, and lipids. It was an incredible time for the first HPN course, not only did early consumers like Jerry have to pick up their own supplies, they Sharon Woods, MSN, RN, CNSN, who serves as one of Jerry's homecare nurses, says, had to learn to mix them as well. At that time, Jerry was working full time, teaching physical education in elementary schools, and infusing at night.

receive this award. In late June Jerry and Dotty will be on a cruise, somewhere on the Jerry is now retired, which gives him more time to devote to being a Purdue fan. During ootball season you are likely to find Jerry and his wife Dotty at a Purdue game, occupying one of the best seats in the stadium. In the off-season, Jerry and Dotty are likely to be traveling. In fact, Jerry will not be able to attend the Oley conference in San Diego to Atlantic or St. Lawrence Scaway, celebrating their fortieth wedding anniversary.

"Jerry is an inspiration to any one of us," says Sharon. "His chronic health problems/ challenges have not consumed his life or prevented him from living life to the fullest

Congratulations, Jerry, on both the award and your fortieth anniversary! even though he infuses his HPN six times a week."

Coordinated by Judy Peterson, RN, MS

Mark DeLegge, MD • Charleston, SC

to improve their quality of life. For this, Dr. DeLegge is being honored with the Nan Mark DeLegge, MD, has demonstrated a willingness to give of himself—above and beyond his regular work hours—to educate and empower homePEN consumers and Couts Award for the Ultimate Volunteer.

"Mark DeLegge is a gastroenterologist with a huge heart," says Dr. DeLegge's friend and colleague Carol Ireton-Jones, PhD, RD. "He takes care of patients on home parenteral and enteral nutrition clinically, but also personally and with TLC."

Enteral Nutrition (A.S.P.E.N.) and serves on many A.S.P.E.N. committees. Earlier this year, Dr. DeLegge received the 2008 Outstanding Contribution Nutrition Physician Dr. DeLegge is open to speaking with homePEN consumers one on one, and to listen and offer support. He is an active member of the American Society for Parenteral and Award from A.S.P.E.N. and was elected to A.S.P.E.N.'s research foundation board.

A nomination for Dr. DeLegge cites how he "makes tough medical jargon easy to understand" and, in speaking to consumers at Oley conferences, how he "takes time with each individual as needed to make sure their questions are answered."

Dr. De Legge also trains new physicians, nurses, dictitians, and pharmacists in nutrition support. Hopefully he instills in them respect for the qualities that are regarded so highly in Dr. DeLegge. Congratulations, Dr. DeLeggel

Kyle R. Noble Scholarship

Kyle R. Noble Scholarship

Soordinated by Richard & Donna Noble

away in 2006 at the age of eight. In 2007, the Noble family established the Kyle R. Noble scholarship with generous gifts from family, individuals and Abbott Nutrition, to memorialize Kyle, and to recognize others who share the admirable qualities for which Kyle R. Noble was an inspiration to others. His enthusiasm for life affected many positively, and he is remembered widely with affection and admiration. Kyle passed he will be remembered.

"As soon as you met Kyle," his father, Richard, notes, "you were hooked on his charming personality and contagious smile. Even when he wasn't feeling well, Kyle always found a way to make others smile and feel better—especially those with other illnesses or challenges in their lives."

Last year, the scholarship was awarded to Alicia Hoelle. Alicia has been on parenteral nutrition since she was an infant. As a teen and young adult, Alicia has served her community with volunteer work, including serving as an Oley Regional Coordinator when she was sixteen. She would like to use her education and her personal experience Alicia is pursuing a degree in psychology. This past year she received honors in several with chronic illness to help children face the difficulties long-term illnesses can present. of the classes she took.

The scholarship recipient for 2008 will be announced at the Town Hall Meeting on Saturday evening at Oley's 23rd Annual Consumer/Clinician Conference in San

Many thanks to the following individuals for their generous support of scholarships for consumers.

Anonymous

importantly, I learned that I am not alone. I have made many friends who have brought me a great deal of happiness. Their friendships mean more to me than words can express. Thank you life was forever changed. I have driven across the country (all the while mixing my TPN). I've traveled to the Caribbean and made two trips to Europe. I've learned life-saving techniques, diet information, cutting edge practices to keep me and my lifeline safe, and so much more. Most When I was born, I was bitten by the travel bug. When I became an HPNer I thought that bug was smashed into the windshield of my car. About one or two years after becoming an HPNer, I was able to attend an Oley picnic, then Oley conferences. I learned so much at these events, my Oley for all you do for so many, and thanks for giving me the opportunity to help others have similar positive experiences.

Melissa Chaney Memorial Fund

Melissa passed away from natural causes on January 30, 2006. For more than nine years, Melissa of the Oley Foundation, and the network of support and outreach that they specialize in. At that time Melissa's healthcare management was less than adequate. Her weight was in a downfall, she Over those years there were many drastic ups-and-downs. In the summer of 2003, Melissa learned I am Victor R. Chaney, the husband of Melissa Chaney, a TPN consumer and Oley contributor. battled pseudo-obstruction, polymyocitis, and mitochondrial myopath-transport chain deficiency. was 5'1" and she averaged around 75 lbs.

credited the education and contacts she acquired at our first Annual Conference as the turning point in her health. Melissa's wishes in life were that any memorial donations given after her After joining Oley, the change in her healthcare and overall quality of life was amazing. We passing would be directed to Oley. In keeping with those wishes, we are establishing a travel scholarship to the annual Oley conference in her honor, so that others may have the opportunity she had in attending.

Jarol Boan, MD, MPH

for the solutions. The multiple visits to a physician, increased cost of gas, and incidentals that are burden of having a chronic disease cannot be underestimated, even if there is insurance coverage As a practicing internist, I have seen patients on home TPN or enteral feeding who struggle with every night takes it toll on self-esteem, work, and family relationships. Additionally, the financial the long term ramifications of their disease. The constant, unrelenting burden of "hooking up" not covered by insurance add to the burden of home TPN and enteral feeding.

I strongly believe in the mission of the Oley Foundation to provide patient support for those affected, as well as educating physicians about home management. I have seen many patients helped by knowing there is an organization that is working on their side. The interaction between patients at an Oley Conference is an important positive outcome for the attendees.

My gift to the Oley Foundation is intended to help patients and their families attend the Oley Conference, and experience the encouraging exchange of ideas that occurs as a result

Travel Scholarships (con't)

Bruce F. Groeber Family

the water, computers and talking to people -- most of all, though, he loved his family. Bruce and Bruce Groeber was an avid fan and regular attendee of the Oley annual conference. He never missed a conference after attending his first one in 1988 until his death in March of 1997. Even though Bruce was on enteral feeding for nine years (beginning in 1979) and on Home PN for an idditional nine years due to malabsorption, he loved to eat and drink. He also loved boats and his wife Bobbie (still active in Oley as a Regional Coordinator) have five children. Bruce also has several grandchildren now.

can serve to improve an attendee's quality of life. The Bruce F. Groeber Travel Scholarship hopes to honor the joy Bruce found in the companionship with other Oley families by supporting others The Bruce F. Groeber Family feels it is important to sponsor a travel scholarship to the annual Oley conference because of what the conference has provided our family. The conference provides the opportunity to get together with others who have similar issues and concerns. It provides the opportunity to learn about everything that is new, exciting and relevant, while bringing people rogether to share information about themselves, their experiences and how they address challenging situations. Many people leave the annual Oley conference knowing that they are not alone, feeling empowered and more positive about their life. They are aware of how much more information they have than when they started. Companionship and knowledge gained at the annual Oley conference in their efforts to attend the conference.

Janet Platt & Christopher Hlatky

Document 31-6

because we strongly believe in the positive impact attending the conference can have. Three years ago Janet's brother got his first tubes. We were all scared and depressed. What did this mean for his We are sponsoring a travel grant for this year's Oley Foundation Consumer/Clinician Conference quality of life? Would he be able to work? What was his life expectancy? The doctors and nurses at the hospital seemed almost as clueless as we were. Then a social worker mentioned Oley casually in passing. I found out the annual conference (that year in Saratoga, NY) was only a few weeks later. I signed Janet's brother and me up and practically dragged him there from the hospital!

people who, in general, were experiencing an excellent quality of life. We got so many questions We met lifelong tube users who were in college or working full-time, people who had families, answered. We learned about different kinds of tubes and pumps, different kinds of care providers From the moment we arrived, we found a warm, supportive and INFORMED group of people. and insurance issues. We left feeling much more positive about life with feeding tubes.

Having Oley around to support and inform is priceless. Helping other tube users get the support they need is important to us.
